SECTION 2 - HAZARDS IDENTIFICATION

GHS Classification
This product is a Hazardous Chemical as defined by the OSHA Hazard Communication Standard 29 CFR 1910.1200.

GHS label elements
Hazard pictogram(s)

Signal word: Warning!

Hazard statements
Causes eye irritation. May cause skin irritation. Possible cancer hazard.

Precautionary statements
Wear eye or face protection. Wear protective gloves.
Avoid breathing vapor. Wash hands thoroughly after handling.
Contaminated clothes should not be allowed out of the work place.
IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses. Continue to rinse for at least 10 minutes.
IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. IF skin irritation or rash occurs. Get medical attention.
Dispose of contents and container in accordance with all local, regional, national and international regulations.

Response:

Disposal:

Storage:
Not Applicable.

Hazards not otherwise classified:
Not Available.
SECTION 3 - COMPOSITION INFORMATION ON INGREDIENTS

Substance/mixture: Mixture.

<table>
<thead>
<tr>
<th>Components</th>
<th>CAS#</th>

</table>

Amounts specified are typical and do not represent a specification. Remaining components are non-hazardous and/or present at amounts below reportable limits.

SECTION 4 - FIRST AID MEASURES

Eye contact:
Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Remove contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

Skin contact:
Wash skin with soap and water. Remove severely contaminated clothing and clean before reuse. Seek medical attention in the unlikely event that irritation occurs.

Inhalation: Remove to fresh air. Get medical attention if breathing is difficult.

Ingestion: Get immediate medical attention.
Do not give anything by mouth to an unconscious person. Do not induce vomiting.

Most important symptoms/effects—acute and delayed:
Eye contact: Causes eye irritation.
Skin contact: May cause an allergic skin reaction.
Ingestion: May cause burns to mouth, throat and stomach.
Inhalation: May give off gas, vapor or dust that is very irritating or corrosive to the respiratory system. Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

Recommendations for immediate medical care: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposure person may need to be kept under medical surveillance for 48 hours.

Specific treatments: No specific treatment.

SECTION 5 - FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA: Water fog or fine spray. Dry chemical fire extinguishers. Carbon dioxide fire extinguishers. Foam. Alcohol resistant foams (ATC type) are preferred. General purpose synthetic foam (including AFFF) or protein foam may function, but will be less effective.

SPECIAL FIREFIGHTING PROCEDURES:
Wear self contained breathing apparatus and protective clothing. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire.

UNUSUAL FIRE AND EXPLOSION HAZARD: Combustible liquid. Dangerous fire hazard when exposed to heat or flame. Vapors are heavier than air and may travel a considerable distance to a source of ignition and flash back.
SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:
Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breathe dust. Provide adequate ventilation. Wear appropriate personal protective equipment (See Section 8).

Environmental precautions:
Avoid dispersal or spilled material and runoff and contact with soil, waterways, drains, and sewers.

Methods and materials for containment and cleaning up:
- Small spill: Move containers from spill area. Absorb spill with an inert material. Place spilled material in a designated, labeled waste container.
- Large spill: Move containers from spill area. Prevent entry into sewers, water courses, basements or confined spaces. Impervious clothing should be worn. Absorb spill with an inert material. Place spilled material in a designated, labeled waste container. Dispose in accordance with federal, state and local requirements.

SECTION 7 - HANDLING AND STORAGE

Handling:
Avoid employee exposure through the use of appropriate engineering controls, adequate personal protective equipment, and good industrial hygiene practices. Wash thoroughly after handling. Handle in well-ventilated work space.

Storage:
Store in a moderate cool, dry, well-ventilated area away from direct sources of heat. Avoid freezing (32 F). Keep container tightly closed and sealed until ready for use. Empty containers may contain product residues and should be handled accordingly.

SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls:
The use of local exhaust ventilation is recommended to control emissions near the source. Additional engineering controls should be used as necessary.

Personal Protection:
Wash hands, forearms and face thoroughly after handling chemical products, before eating, drinking, smoking and using the lavatory and at the end of the working period. Safety glasses with side shields, or goggles, are recommended. Impervious clothing should be worn when gross contact is likely, such as when cleaning up large spills. Respiratory protection is generally not required. Any contaminated clothing should be removed and laundered.
SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Appearance:
Physical state: Liquid
Color: Colorless to Yellow
Odor: Mild
Odor threshold: No test data available.
pH: Not Available
Melting point (°F): Not Available
Boiling point: -244°F
Flash point: Not Available
Evaporation rate: No test data available.
Flammability (solid, gas): Not Available
Lower and upper explosive (flammable) limits: No test data available.
Total Volatility (): Not Available
Vapor Pressure: (mm of Hg): Not Available
Vapor Density (Air=1): 2.4
Density (lbs/gal): Not Available
Solubility in H2O: Dispersible
Partition coefficient: n-octanol/water: Not Available
Auto-Ignition temperature: No test data available.
Viscosity (Brookfield):

SECTION 10 - REACTIVITY AND STABILITY

Stability: This product is stable under normal conditions of storage and use.
Materials/Conditions to avoid: Avoid contact with Strong Acids and Oxidizers. High temperatures and freezing conditions.
Hazardous Decomposition: None.
Hazardous Polymerization: None.

SECTION 11 - TOXICOLOGICAL INFORMATION

Acute (Short Term) Toxicity:
No known significant effects or critical hazards.

Chronic (Long Term) Toxicity:
No known significant effects or critical hazards.

Mutagenicity:
No known significant effects or critical hazards.

Carcinogenicity:
This product contains no listed carcinogens according to IARC, NTP and/or OSHA in concentrations of 0.1 percent or greater.

Routes of Potential Exposure: Potential acute health effects
Ingestion May cause burns to mouth, throat and stomach.
Eye Contact May cause severe corneal injury.
Skin Contact May cause an allergic skin reaction.
Inhalation May give off gas, vapor or dust that is irritating or corrosive to the respiratory system. Exposure to decomposition products may cause a health hazard.
SECTION 12 - ECOLOGICAL INFORMATION

Toxicity: This product is stable under normal conditions of storage and use.

Persistence and degradability: Not available.

Bioaccumulative potential: Not available.

Mobility in soil: Not available.

Other adverse effects: No known significant effects on critical hazards.

SECTION 13 - DISPOSAL CONSIDERATIONS

General: This product must be disposed of in accordance with all applicable federal, state and local regulations.

Waste Management: Incineration or landfilling are recommended disposal techniques. Contact your state or local environmental agency for specific rules.

SECTION 14 - TRANSPORTATION INFORMATION

Reportable quantity-100lb-Oietanolamine.

Transport in bulk according to Annet II of MARPOL 73/78 and the IBC Code: Not applicable.

Additional information: Not applicable.

Special precautions: Not applicable.

SECTION 15 - PRODUCT REGULATORY INFORMATION

USA TSCA STATUS: All of the ingredients of this material have been reported to the U.S. EPA and are included in the Toxic Substance Control Act (TSCA) Chemical Inventory.

US Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) Reportable Quantity (RQ): None (Not regulated)

U.S Superfund Amendments and Reauthorization Act (SARA): SARA 313 N,N-Diethanolamine.
California Proposition 65:
This material contains N, N-Diethanolamine, known to the State of California to cause cancer.

Canada Inventory (DSL):
All components are listed or exempted.

Toxic in packaging (CONEG):
In compliance.

SECTION 16 - OTHER INFORMATION

HMIS (Hazardous Materials Identification System) Rating:

| Health:  | 2               | 4               | EXTREME |
| Flammability: | 1               | 3               | HIGH   |
| Reactivity:   | 1               | 2               | MODERATE |
|              | 1               | 1               | Slight |
|              | 0               | 0               | INSIGNIFICANT |

Preparation Date: August 5, 2019.
